TECHNICAL SKILLS

Cloud Platforms:	AWS, Azure
Infrastructure as Code:	Terraform, CloudFormation
Containers & Orchestration:	Docker, Kubernetes
CI/CD:	GitHub Actions, Jenkins
Security:	Prisma Cloud, Trend Micro, Palo Alto, Fortinet
Systems & Virtualization:	Red Hat Linux, Ubuntu, Windows Server, Active Directory, VMware, Hyper-V
Networking:	DNS, DHCP, TCP/IP, NFS, SSH, Samba
Scripting:	Python, Bash, PowerShell

CERTIFICATIONS

AWS Certified Solutions Architect – Associate · AWS Certified Cloud Practitioner · Cisco Networking Essentials

WORK EXPERIENCE

IT Consultant

Sep 2025 – Present

BetaTech Consults Ltd

- Architect and deploy hybrid cloud and on-premises infrastructure across 10+ client environments, integrating cloud platforms with data center systems while maintaining 99.9% uptime SLAs
- Conduct infrastructure assessments and design remediation strategies for enterprises modernizing legacy systems or migrating to hybrid and multi-cloud environments
- Deploy and configure cloud-native security tooling (Prisma Cloud, Trend Micro, Palo Alto, Fortinet) to enforce compliance and protect workloads across cloud and co-location environments
- Provide Level 2/3 technical support for deployed solutions, conducting system health checks and producing technical documentation for ongoing maintenance

Cloud Computing Tutor

Dec 2025 – Present

Torilo Academy

- Deliver structured cloud computing curriculum across AWS and Azure platforms, mentoring students from non-technical backgrounds into job-ready IT professionals
- Design and lead hands-on projects, labs, and assessments that reinforce real-world cloud and infrastructure skills

Network Operations Engineer

Jun 2024 – Jun 2025

Spectranet Limited

- Managed Linux servers (Red Hat, Ubuntu) across virtualized platforms, maintaining 99.5% uptime through proactive monitoring and performance optimization
- Deployed and managed virtual environments using VMware, Oracle OVM/OLVM, and Hyper-V, optimizing resource allocation across production workloads
- Applied DNS, NFS, Samba, SSH, and TCP/IP protocols with system hardening best practices for secure, compliant networked infrastructure
- Automated routine infrastructure tasks with Bash and Python scripts, reducing manual processes and improving incident response efficiency

PROJECTS

Cloud-Native Application Deployment on AWS EKS · [GitHub](#)

Docker, Kubernetes, AWS EKS, S3, DynamoDB, GitHub Actions

- Containerized a full-stack application using Docker and deployed to AWS EKS with horizontal pod autoscaling
- Configured Kubernetes clusters with persistent storage, service discovery, and health checks, achieving 99% uptime
- Built an automated CI/CD pipeline with GitHub Actions enabling single-command deployments with rollback capabilities

Serverless Web Application with CI/CD and IaC (AWS) · [GitHub](#)

AWS S3, CloudFront, Lambda, API Gateway, DynamoDB, GitHub Actions

- Designed and deployed a fully serverless application using AWS SAM infrastructure-as-code
- Built an event-driven backend using API Gateway, Lambda, and DynamoDB, handling 1000+ daily requests
- Implemented end-to-end testing with Cypress and automated CI/CD via GitHub Actions and AWS CodePipeline

EDUCATION

Bachelor of Science, Computer Science

2023

Obafemi Awolowo University
